Summary

Full-stack product engineer building client applications with TypeScript, React and SQL. Built a reseller tool that turned marketplace data into pricing decisions and helped deliver a document-signing product across UI, APIs and data. Work directly with clients from initial questions through deployment and support.

Skills

- TypeScript · React · Next.js · Node.js
- REST · GraphQL · tRPC
- SQL · PostgreSQL · Drizzle
- Data-driven interfaces · workflow automation
- Client discovery · deployment · production support

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

2015 - Present

- Build TypeScript and React applications for clients, translating their workflows into interfaces, typed APIs and data models. Stay involved through deployment and support.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Ran the NOC, handled escalations and supported SOC 1/SOC 2 audits. Migrated workloads from Hyper-V and ESXi to Docker and Kubernetes.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Built SQL/MongoDB applications connecting CRM, provisioning, onboarding and service operations across locations; translated cross-department handoffs into explicit workflows.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

- Engineered SMB networks and endpoints, built diagnostic tools and handled on-call issues directly with clients.

Infrastructure and Systems Focal

IBM

2010 - 2012

- Supported enterprise infrastructure, automated audit/backup workflows and coordinated cross-team changes.

Selected Projects

Proofmark | Full-stack signing workflows

Completed client contribution

- Built across React/Next.js, tRPC and PostgreSQL, connecting document fields, identity and signing routes with audit history and verification.

NuPrice | Marketplace repricing

Long-term client engagement

2019 - 2021

- Built and operated a reseller application that ingested marketplace and competitor data, applied merchant-defined pricing rules, and surfaced analytics. Owned billing, customer support and operations.
